

Summary

Software Engineer with experience across frontend, backend, and full-stack workflows. Skilled in React.js, Next.js, Node.js, and modern web technologies, with a strong focus on building reliable, scalable, and user-centric applications. Adept at integrating APIs, improving performance, and delivering clean, production-ready solutions.

Experience

Lincode

Frontend Developer Intern

May 2025 – Nov 2025

Remote

- Revamped the product’s UI/UX by implementing complete dark mode, multi-brand theming, modular CSS architecture, and translation support across all modules.
- Built reusable graph components (bar, line, donut, gauge, heatmap, Pareto, etc.) using Recharts and Highcharts, and developed a drag-and-drop customizable analytics viewer with `react-dnd-kit`.
- Enhanced core features including filters, subscription flows, credit system, modals/steppers, and performed extensive QA to ensure consistency, responsiveness, and production readiness.

WhatBytes

Frontend Developer Intern

Jan 2025 – May 2025

Remote

- Worked on a live project *Cura Care* (curacare.in).
- Implemented website analytics using PostHog, Google Analytics, and Facebook Pixel to track user interactions.
- Developed dynamic slot management based on bookings to improve scheduling flexibility.

Ministry of Electronics and Information Technology

Intern

Mar 2023 – Dec 2023, Mar 2024 – Jun 2024

Hyderabad, India

- Developed a CMS dashboard for *eDeekshaam*, enhancing UI/UX and overall user interaction.
- Designed and implemented responsive “Important Links” and “Events” pages using React.js, improving cross-browser compatibility and engagement.
- Created four interactive educational games: “Identify Fruits,” “Identify Animals,” “Identify Vehicles,” “Body Parts”.
- Collaborated with UX designers and backend developers to ensure seamless integration and user experience.

Projects

Matchwize | Live

Next.js, Tailwind CSS, Node.js, Express.js, Supabase

- Built a platform that analyzes resumes against job descriptions to generate match scores and insights.
- Integrated Gemini API for intelligent resume analysis and suggestion generation.

ThankQuiz | Live

React.js, Redux, Bootstrap, Figma

- Designed and developed a fully responsive quiz platform with a smooth and intuitive UI.
- Implemented OTP-based mobile authentication for secure, passwordless login.
- Implemented profile completion flows and stored user data and quiz history for personalization.
- Integrated dynamically generated AI question banks through backend API.
- Used Redux for robust state management covering authentication, quiz progress, and scoring.

Exceed Robotics | Live

HTML, CSS, JavaScript, Bootstrap, jQuery

- Developed program enrollment, camp information, and blog pages for improved UX.
- Implemented responsive UI optimized for performance and accessibility across devices.
- Collaborated with the team to ensure design consistency across components.

Education

M.Tech, Computer Science

Maulana Azad National Urdu University, Hyderabad

Jul 2022 – May 2027

B.Tech (Lateral Entry), Computer Science

Maulana Azad National Urdu University, Hyderabad

Oct 2022 – May 2025

CGPA: 8.71/10

## Skills

---

Frontend	JavaScript, React.js, Next.js, Bootstrap, Tailwind CSS, MUI
Backend	Node.js, Express.js
Databases	MongoDB, MySQL
Tools	Git, GitHub, VSCode, Figma

## Courses

---

- The Web Developer Bootcamp 2023 — Udemy
- Responsive Web Design — freeCodeCamp.org

## Achievements

---

- Achieved 1<sup>st</sup> position in Diploma in Computer Science and Engineering at university level.
